They were cast at the Watervliet Arsenal, and are magnificent examples of what America can do in the way of making heavy ordnance.—Journal.

The influenza is attacking the animals abroad. In Italy the poultry are affected; in Berlin, the horses, and in Amsterdam, the wild animals in the Zoological Garden, and with the latter it is generally fatal, nine of them having fallen victims up to date.

It is said that the ex-Senator James G. Fair has made his will, bequeathing \$500,000 to Charity. Two hundred thousand dollars goes to the Catholic Orphan Asylum in memory of his late wife, \$200,000 to the Protestant Orphan Asylums of San Francisco and \$100,000 to the Hebrew Orphan Asylum.

A very singular trial is going on in Frankfurt. A professional nurse allowed a piece of flesh to be severed from her arm by a surgeon and transplanted into an open wound on the body of a wealthy patient. She now claims the surgeon cut too much away, and is suing him for damages on the ground of unnecessary injury to herself.

A dispatch from New Orleans says the true secret of the withdrawal of the Louisiana State lottery from the fierce political struggle which has been raging in Louisiana for many months is because the lottery is to go to Mexico. Arrangements to that end are about completed with President Diaz, and the Fortress of Chapultepec will be the location of the Louisiana after 1893.

Death of Judge Beatty.

Judge Henry Oscar Beatty died in Sacramento on Sunday morning, at the advanced age of 79 years. In 1863 Judge Beatty came to this State to practice law and in 1864 was elected to the Supreme Court Judgeship. He was a most able jurist and progressive in his ideas. After the expiration of his term of office, he removed to Sacramento where he practiced law until quite recently. He leaves a wife and four children, Judge Wm. H. Beatty, Mrs. O. P. Willis and Mrs. George E. Bates.

Although a man of firm convictions and most positive characteristics, he was always courteous and kindly in his manner, and faithful in his friendships.

He was thoroughly temperate in all things and led a pure and upright life. Unassuming in his virtues he deserves a record of spotless integrity seldom equaled in this age of sharp practice and conviction. Exceptionally devoted to his family his loss will be irreparable to them. Their many friends in Nevada will sympathize deeply in their bereavement.

Rich and Curious Specimen.

A miner named Lawrence has brought to Salt Lake one of the most curious specimens of mineral that has ever been seen anywhere. It is a conglomerate mass of volcanic matter, both mineral and vegetable the latter so petrified and hardened by the fire of nature as to be scarcely distinguishable from the mineral. In the curious specimen is the clearly defined body of a snake. Its head is perfect, and its long body can be traced through the mass of mineral and vegetable matter. The curious specimen was found on Bear river, about thirty-five miles from Malad City, Idaho, by Mr. Lawrence and a sheep herder, who were mining in that locality. It is very rich in silver.—Ex.

Pertinent.

Two Carson parents were talking the other day about the advisability of patronizing home production, when the attentive and observant little pet of the household looked up and innocently enquired: "Say, mamma, am I home-made?"

Joseph Beer, representing the Sacramento Daily Evening News, paid this office a visit yesterday.

John Slater, naturalist, has returned to Carson. He is too well known to require any further introduction. He will appear at the Odd Fellow's Hall tonight.

Lyman Frisbie was at the show last night. He tried to get in for half price on account of having only one eye, but was charged double on the grounds that it would take him twice as long to see the show.

There is no truth in the report that M. Brazzardovich, who killed Robson at Soda Springs recently, looks worn and haggard. A party who saw him in jail yesterday informs this journal that he is looking well and hearty, but is uncommunicative.

Warning.

The Breeder and Sportsman prints an article warning Nevada breeders against stallions which are brought here purporting to be from famous blood, when they really have no pedigree. That paper claims that the stallion "Ned Gifford" now being advertised in the Enterprise and Lyon County Times to stand in Mason Valley is of the fraudulent variety with a "pedigree" to suit the people and advises everybody to leave the animal severely alone. The party who advertises in this manner would seem to be obtaining money under false pretenses and ought to be brought up with a round turn.

A temperance reformer is driving a wagon through the Chicago lumber districts, with a cabinet organ in one and a coffee tank in the other, distributing free coffee to the workmen. The result is a diminution in the local beer sales.

Some rare specimens of the teeth of the mastodon have been found near Alton, Ill., under a ledge of limestone 200 feet deep.
